Neuroradiology (including head and neck)

Computed tomography in von Hippel-Lindau disease 97
Bone reaction in temporomandibular joint dysfunction—An investigation with bone scintigraphy and gamma imaging 161
Extensive spinal dysrhaphism and sacral agenesis without urologic disturbances 209
Size of the internal carotid and middle cerebral arteries in patients with trigeminal neuralgia 459
Complications of intracranial hemorrhage in premature infants—Ultrasound follow-up two to fifteen months after birth 465
Documentation of a new contrast medium for the subrachnoid space—Demands, design and results from the first multicentre trial with iohexol . . . 487
Functional lumbar myelography with iohexol 493
First clinical trial with iohexol in myelography . . . 499
Experience with iohexol in lumbar myelography . . 503
Clinical trial of iohexol in lumbar myelography . . . 507

Thoracic radiology (excluding heart)

Abnormalities of the azygo-oesophageal recess at computed tomography 3
Chest radiography and pulmonary mechanics in ventilator treated low birth weight infants 71
Radiation exposure and estimate of late effects of chest roentgen examination in children 309
Pulmonary edema induced by high intravenous doses of diatrizoate in the rat 419
Pulmonary haematoma caused by oral anticoagulant therapy—Report of a case 445
Pulmonary edema induced by contrast medium—A comparative investigation in the rat following high intravenous doses of one ionic (diatrizoate) and one non-ionic (metrizamide) contrast medium . . 481

Cardiovascular radiology (including lymphography)

CT attenuation ratio of myocardium and blood pool in the normal and infarcted canine heart 11
Catheter pericardiocentesis in the postoperative period 33
Two new contrast media in coronary angiography . 37
Effects of ioxaglic acid on cardiac functions during coronary arteriography in canines 43
Metrizamide and iothalamate meglumine in peripheral angiography in arterial insufficiency in the legs 49
Digital venous subtraction angiography of pulmonary embolism in dogs 101
Measurement of regional lung blood flow by videodensitometry 195
Radiologic detection of aortic stenosis 201
Measurement of regional changes in myocardial perfusion using dynamic computed tomography and contrast medium 297
Pneumopyopericardium 305
Size of normal retroperitoneal lymph nodes 315
Lymphography in retroperitoneal metastases in nonseminoma testicular tumor patients with a normal CT scan 319
Pulsed Doppler and B-mode ultrasound features of interposition meso-caval and porta-caval shunts . 353
Thrombosis of Björk-Shiley valve prostheses—Evaluation by cineradiography 363
Intravenous digital subtraction angiography—Collateral circulation of 'empty leg' 369
Assessment of deep venous insufficiency by ascending phlebography 375
Single catheter technique for transaxillary aortofemoral angiography 381
Calcifications, narrowing and rugosities of the leg arteries in diabetic patients 401
Pulmonary angiography with Iopamidol and Renografin 76 in normal and pulmonary hypertensive dogs 425
Serial pulmonary angiography in rats with pulmonary damage due to intravascular coagulation 449

Gastrointestinal radiology

Reproducibility and observer variation at computed tomography and ultrasound of the normal pancreas 21
Value of tomographic section views in identifying liver abnormalities by scintigraphy 107
Variants of pancreatic duct system of importance in endoscopic retrograde cholangiopancreatography–Observation on autopsy specimens 113
Morphologic aspects of hepatic abscesses at computed tomography and ultrasound 129
Comparison of ultrasound and CT images of liver metastases 139
Radiologic evaluation of subdiaphragmatic spread of Hodgkin's disease 153
Double contrast examination in carcinoma of the colon and rectum—A prospective clinical series . 177
Computed tomography and angiography in carcinoid liver metastases 189
Localized fatty infiltration of the liver—CT demonstration of its disappearance on treatment 359
Percutaneous transhepatic cholangiography and drainage—Risks and complications 433
Value of computed tomography in traumatic pancreatitis in children 441
Barytoma of the rectum 473

Neuroradiology (including head and neck)

Computed tomography in von Hippel-Lindau disease 97
Bone reaction in temporomandibular joint dysfunction—An investigation with bone scintigraphy and gamma imaging 161
Extensive spinal dysrhaphism and sacral agenesis without urologic disturbances 209
Size of the internal carotid and middle cerebral arteries in patients with trigeminal neuralgia 459
Complications of intracranial hemorrhage in premature infants—Ultrasound follow-up two to fifteen months after birth 465
Documentation of a new contrast medium for the subrachnoid space—Demands, design and results from the first multicentre trial with iohexol . . . 487
Functional lumbar myelography with iohexol 493
First clinical trial with iohexol in myelography . . . 499
Experience with iohexol in lumbar myelography . . 503
Clinical trial of iohexol in lumbar myelography . . . 507

Thoracic radiology (excluding heart)

Abnormalities of the azygo-oesophageal recess at computed tomography 3
Chest radiography and pulmonary mechanics in ventilator treated low birth weight infants 71
Radiation exposure and estimate of late effects of chest roentgen examination in children 309
Pulmonary edema induced by high intravenous doses of diatrizoate in the rat 419
Pulmonary haematoma caused by oral anticoagulant therapy—Report of a case 445
Pulmonary edema induced by contrast medium—A comparative investigation in the rat following high intravenous doses of one ionic (diatrizoate) and one non-ionic (metrizamide) contrast medium . . 481

Cardiovascular radiology (including lymphography)

CT attenuation ratio of myocardium and blood pool in the normal and infarcted canine heart 11
Catheter pericardiocentesis in the postoperative period 33
Two new contrast media in coronary angiography . 37
Effects of ioxaglic acid on cardiac functions during coronary arteriography in canines 43
Metrizamide and iothalamate meglumine in peripheral angiography in arterial insufficiency in the legs 49
Digital venous subtraction angiography of pulmonary embolism in dogs 101
Measurement of regional lung blood flow by videodensitometry 195
Radiologic detection of aortic stenosis 201
Measurement of regional changes in myocardial perfusion using dynamic computed tomography and contrast medium 297
Pneumopyopericardium 305
Size of normal retroperitoneal lymph nodes 315
Lymphography in retroperitoneal metastases in nonseminoma testicular tumor patients with a normal CT scan 319
Pulsed Doppler and B-mode ultrasound features of interposition meso-caval and porta-caval shunts . 353
Thrombosis of Björk-Shiley valve prostheses—Evaluation by cineradiography 363
Intravenous digital subtraction angiography—Collateral circulation of 'empty leg' 369
Assessment of deep venous insufficiency by ascending phlebography 375
Single catheter technique for transaxillary aortofemoral angiography 381
Calcifications, narrowing and rugosities of the leg arteries in diabetic patients 401
Pulmonary angiography with Iopamidol and Renografin 76 in normal and pulmonary hypertensive dogs 425
Serial pulmonary angiography in rats with pulmonary damage due to intravascular coagulation 449

Gastrointestinal radiology

Reproducibility and observer variation at computed tomography and ultrasound of the normal pancreas 21
Value of tomographic section views in identifying liver abnormalities by scintigraphy 107
Variants of pancreatic duct system of importance in endoscopic retrograde cholangiopancreatography–Observation on autopsy specimens 113
Morphologic aspects of hepatic abscesses at computed tomography and ultrasound 129
Comparison of ultrasound and CT images of liver metastases 139
Radiologic evaluation of subdiaphragmatic spread of Hodgkin's disease 153
Double contrast examination in carcinoma of the colon and rectum—A prospective clinical series . 177
Computed tomography and angiography in carcinoid liver metastases 189
Localized fatty infiltration of the liver—CT demonstration of its disappearance on treatment 359
Percutaneous transhepatic cholangiography and drainage—Risks and complications 433
Value of computed tomography in traumatic pancreatitis in children 441
Barytoma of the rectum 473

Urogenital radiology

Functional placental scintigraphy—A methodologic and clinical investigation 165
Pressures during retrograde pyelography 171
Extensive spinal dysrhaphism and sacral agenesis without urologic disturbances 209
Hysterosalpingography in the evaluation of infertility 253
Lymphography in retroperitoneal metastases in non-seminoma testicular tumor patients with a normal CT scan 319
Intrarenal backflow and renal perfusion during increased intrapelvic pressure in excised porcine kidneys 327
Iohexol compared with metrizoate in urography . . 337
Nephroangiotomographic diagnosis of retroperitoneal spleen—Report of a case 391
Influence of diuresis on the degree of vesicoureteral reflux—An experimental investigation in rats . . 395

Orthopedic radiology (including soft tissue)

Villonodular synovitis in the hip joint diagnosed by arthrography—Report of a case 67
Fluoroscopy in measurement of femoral neck anteversion 81
Scintimetric evaluation of posttraumatic and postoperative growth disturbance using $^{99}Tc^{m}$ MDP . . 85
A stereotaxic technique for preoperative marking of non-palpable breast lesions 145
Torsion in femoral fractures in childhood—A longitudinal investigation 213
Arthrography of the ankle—Value in diagnosis of rupture of the calcaneofibular ligament 217
Double contrast arthrography of the knee—Comparison between three contrast media 225
Development of carpal bone cyst as revealed by radiography 231
Radiographic diagnosis of non-palpable breast lesions—Correlation to pathology 259
Clustered breast calcifications 273
Stereotaxic needle biopsy of non-palpable breast lesions—Cytologic and histopathologic findings . . 283
Radiologic and clinical evaluation of Harrington instrumentation in the injured dorsolumbar spine . 289
Stereotaxic needle biopsy of non-palpable breast lesions—A clinical and radiologic follow-up 385
Arthrosis of the lunate-capitate joint 415

Pediatric radiology

Chest radiography and pulmonary mechanics in ventilator treated low birth weight infants 71
Scintimetric evaluation of posttraumatic and postoperative growth disturbance using $^{99}Tc^{m}$ MDP . . 85
Extensive spinal dysrhaphism and sacral agenesis without urologic disturbances 209
Torsion in femoral fractures in childhood—A longitudinal investigation 213
Radiation exposure and estimate of late effects of chest roentgen examination in children 309
Complications of intracranial hemorrhage in premature infants—Ultrasound follow-up two to fifteen months after birth 465

Computed tomography

Abnormalities of the azygo-oesophageal recess at computed tomography 3
Specific filtration of the primary radiation in computed tomography 17
Reproducibility and observer variation at computed tomography and ultrasound of the normal pancreas 21
Computed tomography in von Hippel-Lindau disease 97
Morphologic aspects of hepatic abscesses at computed tomography and ultrasound 129
Comparison of ultrasound and CT images of liver metastases 139
Radiologic evaluation of subdiaphragmatic spread of Hodgkin's disease 153
Computed tomography and angiography in carcinoid liver metastases 189
Radiologic and clinical evaluation of Harrington instrumentation in the injured dorsolumbar spine . 289
Measurement of regional changes in myocardial perfusion using dynamic computed tomography and contrast medium 297
Localized fatty infiltration of the liver—CT demonstration of its disappearance on treatment 359
Value of computed tomography in traumatic pancreatitis in children 441

Ultrasonography

Reproducibility and observer variation at computed tomography and ultrasound of the normal pancreas 21
Morphologic aspects of hepatic abscesses at computed tomography and ultrasound 129
Comparison of ultrasound and CT images of liver metastases 139
Radiologic evaluation of subdiaphragmatic spread of Hodgkin's disease 153
Pulsed Doppler and B-mode ultrasound features of interposition meso-caval and porta-caval shunts . 353
Complications of intracranial hemorrhage in premature infants—Ultrasound follow-up two to fifteen months after birth 465

Nuclear radiology

Scintimetric evaluation of posttraumatic and postoperative growth disturbance using $^{99}Tc^{m}$ MDP . . 85
Value of tomographic section views in identifying liver abnormalities by scintigraphy 107
Bone reaction in temporomandibular joint dysfunction—An investigation with bone scintigraphy and gamma imaging 161
Functional placental scintigraphy—A methodologic and clinical investigation 165

Contrast media

Two new contrast media in coronary angiography . 37
Effects of ioxaglic acid on cardiac functions during coronary arteriography in canines 43
Metrizamide and iothalamate meglumine in peripheral angiography in arterial insufficiency in the legs 49
Iopramide—Clinical experience with a new non-ionic contrast medium 55

Double contrast arthrography of the knee—Comparison between three contrast media 225
Desensitisation as a means of preventing untoward reactions to ionic contrast media 235
Tolerability of iohexol after injection into healthy volunteers 241
Iohexol compared with metrizamide in urography . 337
Pulmonary edema induced by high intravenous doses of diatrizoate in the rat 419
Pulmonary angiography with Iopamidol and Renografin 76 in normal and pulmonary hypertensive dogs 425
Increased content of saliva cortisol following infusion of ioglycamate 477
Pulmonary edema induced by contrast medium—A comparative investigation in the rat following high intravenous doses of one ionic (diatrizoate) and one non-ionic (metrizamide) contrast medium . . 481
Documentation of a new contrast medium for the subarachnoid space—Demands, design and results from the first multicentre trial with iohexol . . . 487
Functional lumbar myelography with iohexol 493
First clinical trial with iohexol in myelography . . . 499
Experience with iohexol in lumbar myelography . . 503
Clinical trial of iohexol in lumbar myelography . . . 507

Experimental radiology

CT attenuation ratio of myocardium and blood pool in the normal and infarcted canine heart 11
Effects of ioxaglic acid on cardiac functions during coronary arteriography in canines 43
Digital venous subtraction angiography of pulmonary embolism in dogs 101
Experimental evaluation of a new instrument for transcatheter electrocoagulation 323
Intrarenal backflow and renal perfusion during increased intrapelvic pressure in excised porcine kidneys 327
Influence of diuresis on the degree of vesicoureteral reflux—An experimental investigation in rats . . 395
Pulmonary edema induced by high intravenous doses of diatrizoate in the rat 419
Pulmonary angiography with Iopamidol and Renografin 76 in normal and pulmonary hypertensive dogs 425
Serial pulmonary angiography in rats with pulmonary damage due to intravascular coagulation 449
Pulmonary edema induced by contrast medium—A comparative investigation in the rat following high intravenous doses of one ionic (diatrizoate) and one non-ionic (metrizamide) contrast medium . . 481

Physics and technique

Specific filtration of the primary radiation in computed tomography 17
Transfer function analysis in rotational panoramic radiography 27
Quality assurance in radiographic imaging included in the film marking procedure 63
A stereotaxic technique for preoperative marking of non-palpable breast lesions 145
Measurement of regional lung blood flow by videodensitometry 195
Comparison of radiographic images—A new method for analysis of very small movements 267
Stereotaxic needle biopsy of non-palpable breast lesions—Cytologic and histopathologic findings . . 283
Radiation exposure and estimate of late effects of chest roentgen examination in children 309
Experimental evaluation of a new instrument for transcatheter electrocoagulation 323
A roentgen stereophotogrammetric system—Construction, calibration and technical accuracy . . . 343
Single catheter technique for transaxillary aortofemoral angiography 381
Stereotaxic needle biopsy of non-palpable breast lesions—A clinical and radiologic follow-up 385

Miscellaneous

Erik Lindgren retires as chief editor 1

Book reviews

Traité de radiodiagnostic—II—Radiologie cardiovasculaire cœur et aorte thoracique 511
Radiology departments—Planning, operation and management 511
Pharmacoangiography in the diagnosis of tumours . 511
Arteriography of the pelvis—Diagnostic and therapeutic procedures 512

Volume 24 (1983)

CONTENTS OF VOLUME 24 (1983)—DIAGNOSIS

Erik Lindgren retires as chief editor
E. BOIJSEN 1

Abnormalities of the azygo-oesophageal recess at computed tomography
G. LUND and H. H. LIEN 3

CT attenuation ratio of myocardium and blood pool in the normal and infarcted canine heart
H. G. RINGERTZ, R. G. PALMER, M. J. LIPTON and E. CARLSSON 11

Specific filtration of the primary radiation in computed tomography
C. HÅRDSTEDT and L. SVENSSON 17

Reproducibility and observer variation at computed tomography and ultrasound of the normal pancreas
F. KOLMANNSKOG, S. LARSEN, T. SWENSEN and T. LARSSEN 21

Transfer function analysis in rotational panoramic radiography
W. D. MCDAVID, U. WELANDER, H. KANERVA and C. R. MORRIS 27

Catheter pericardiocentesis in the postoperative period
U. ERIKSON, T. ÅBERG and G. KLINGEN 33

Two new contrast media in coronary angiography
K. SELIN and L. BJÖRK 37

Effects of ioxaglic acid on cardiac functions during coronary arteriography in canines
B. TRÄGÅRDH and P. R. LYNCH 43

Metrizamide and iothalamate meglumine in peripheral angiography in arterial insufficiency in the legs
B. F. ZACHRISSON, R. JOHANSSON, L. BJÖRK and K. WÅLLGREN 49

Iopramide—Clinical experience with a new non-ionic contrast medium
K.-J. WOLF, B. STEIDLE, T. SKUTTA and W. MÜTZEL 55

Quality assurance in radiographic imaging included in the film marking procedure
K. ANDERSON and O. MATTSSON 63

Villonodular synovitis in the hip join diagnosed by arthrography—Report of a case
T. NYBONDE, W. MORTENSSON and B. ROBERTSON 67

Chest radiography and pulmonary mechnics in ventilator treated low birth weight infants
W. MORTENSSON, M. LINDROTH, B. JONSSON and N. SVENNINGSEN 71

Fluoroscopy in measurement of femoral neck anteversion
O. REIKERÅS, I. BJERKREIM and O. SORTLAND . 81

Scintimetric evaluation of posttraumatic and postoperative growth disturbance using $^{99}Tc^{m}$ MDP
B. BYLANDER, L. I. HANSSON, J. KÄRRHOLM and Y. NAVERSTEN 85

Computed tomography in von Hippel-Lindau disease
A. LIST, B. FRISK and N. G. WESTBERG 97

Digital venous subtraction angiography of pulmonary embolism in dogs
G. WITTE, R. MAAS, R. E. GRABBE, U. OBERMÖLLER, K. H. HÖHNE and J. HAGEMAN 101

Value of tomographic section views in identifying liver abnormalities by scintigraphy
A. REID, P. P. DENDY, H. G. GEMMEL and F. W. SMITH 107

Variants of pancreatic duct system of importance in endoscopic retrograde cholangiopancreatography—Observations on autopsy specimens
B. F. SIGFÚSSON, L. WEHLIN and C. G. LINDSTRÖM 113

Morphologic aspects of hepatic abscesses at computed tomography and ultrasound
F. TERRIER, CH. D. BECKER and J. K. TRILLER . 129

Comparison of ultrasound and CT images of liver metastases
M. PAMILO, I. SURAMO and S. LÄHDE 139

A stereotaxic technique for preoperative marking of non-palpable breast lesions
G. SVANE 145

Radiologic evaluation of subdiaphragmatic spread of Hodgkin's disease
K. JONSSON, W. KARP, T. LANDBERG, W. MORTENSSON, J. TENVALL and U. TYLÉN 153

Bone reaction in temporomandibular joint dysfunction—An investigation with bone scintigraphy and gamma imaging
P. KIRVESKARI, P. ALANEN, T. KUUSELA and P. RUOTSALAINEN 161

Functional placental scintigraphy—A methodologic and clinical investigation
L. NYLUND, N. O. LUNELL, B. SARBY, R. LEWANDER and S. THORNSTRÖM 165

Pressures during retrograde pyelography
H. S. THOMSEN 171

Double contrast examination in carcinoma of the colon and rectum—A prospective clinical series
F.-T. FORK, C. LINDSTRÖM and G. EKELUND . . 177

Computed tomography and angiography in carcinoid liver metastases
B. SMEVIK, F. KOLMANNSKOG and T. AAKHUS . 189

Measurements of regional lung blood flow by videodensitometry
U. ERIKSON, G. HELMIUS, G. RUHN and S. SAWADA 195

Radiologic detection of aortic stenosis
A. SZAMOSI and B. WASSBERG 201
Extensive spinal dysrhaphism and sacral agenesis without urologic disturbances
I. HELIN, H. PETTERSSON and D. ALTON 209
Torsion in femoral fractures in childhood—A longitudinal investigation
L. HENRIKSSON, B. HENRIKSON and T. BLOMBERG 213
Arthrography of the ankle—Value in diagnosis of rupture of the calcaneofibular ligament
E. LINDHOLMER, A. ANDERSEN, S. BRYDE ANDERSEN, V. FUNDER, J. P. JØRGENSEN, B. NIEDERMANN and M. VUUST 217
Double contrast arthrography of the knee—Comparison between three contrast media
E. M. LAASONEN and A. LINDHOLM 225
Development of carpal bone cyst as revealed by radiography
K. JONSSON and O. EIKEN 231
Desensitisation as a means of preventing untoward reactions to ionic contrast media
C.-D. AGARD, B. ARNER, S. EKHOLM and E. BOIJSEN 235
Tolerability of iohexol after injection into healthy volunteers
K. LEVORSTAD, A. KOLBENSTVEDT, F. KOLMANNSKOG, S. CHR. SOMMERFELT, H. STORMORKEN, E. ANDREW and K. SVEEN 241
Hysterosalpingography in the evaluation of infertility
N. HOLST, T. ÅBYHOLM and A. BORGERSEN . . . 253
Radiographic diagnosis of non-palpable breast lesions—Correlation to pathology
B. R. OPPEDAL and T. DREVVATNE 259
Comparison of radiographic images—A new method for analysis of very small movements
P. EDHOLM, R. HAMMER, S. HAMMERBY and B. LINDHOLM 267
Clustered breast calcifications
B. F. SIGFÚSSON, I. ANDERSSON, K. ASPEGREN, L. JANZON, F. LINELL and O. LJUNGBERG 273
Stereotaxic needle biopsy of non-palpable breast lesions—Cytologic and histopathologic findings
G. SVANE and C. SILFVERSWÄRD 283
Radiologic and clinical evaluation of Harrington instrumentation in the injured dorsolumbar spine
K. HERRLIN, L. EKELUND and G. SUNDÉN . . . 289
Measurement of regional changes in myocardial perfusion using dynamic computed tomography and contrast medium
P. W. DOHERTY, C. G. SKIÖLDEBRAND, R. W. REDINGTON, W. H. BERNINGER and M. J. LIPTON 297
Pneumopyopericardium
H. STRIDBECK and L. SAMUELSSON 305
Radiation exposure and estimate of late effects of chest roentgen examination in children
M. GUSTAFSSON and W. MORTENSSON 309
Size of normal retroperitoneal lymph nodes
A. MAGNUSSON 315
Lymphography in retroperitoneal metastases in non-seminoma testicular tumor patients with a normal CT scan
H. H. LIEN, S. D. FOSSÅ, S. OUS and A. E. STENWIG 319
Experimental evaluation of a new instrument for transcatheter electrocoagulation
L. SAMUELSSON, L. JÖNSSON and G. LIN 323
Intrarenal backflow and renal perfusion during increased intrapelvic pressure in excised porcine kidneys
H. S. THOMSEN, S. DORPH, S. LARSEN and L. B. TALNER 327
Iohexol compared with metrizamide in urography
K. LEVORSTAD, A. KOLBENSTVEDT and E. W. LØYNING 337
A roentgen stereophotogrammetric system—Construction, calibration and technical accuracy
G. SELVIK, P. ALBERIUS and A. S. ARONSON . . 343
Pulsed Doppler and B-mode ultrasound features of interposition meso-caval and porta-caval shunts
L. FORSBERG and T. HOLMIN 353
Localized fatty infiltration of the liver—CT demonstration of its disappearance on treatment
S. SAWADA, S. KAWA, T. MURATA, Y. TANAKA, T. KOISHI and N. FUKAGAE 359
Thrombosis of Björk-Shiley valve prostheses—Evaluation by cineradiography
M. RAJANI, S. MUKHOPADHYAY, R. MAHESHAWARI, P. VENUGOPAL and S. BHARWAVA . . 363
Intravenous digital subtraction angiography—Collateral circulation of 'empty leg'
C. CONRAD and J. FRIES 369
Assessment of deep venous insufficiency by ascending phlebography
B. LUNDSTRÖM and G. OSTERMAN 375
Single catheter technique for transaxillary aortofemoral angiography
J. HOEVELS 381
Stereotaxic needle biopsy of non-palpable breast lesions—A clinical and radiologic follow-up
G. SVANE 385
Nephroangiotomographic diagnosis of retroperitoneal spleen—Report of a case
S. D. BIANCHI, A. BOCCARDI and B. MECOZZI . . 391
Influence of diuresis on the degree of vesicoureteral reflux—An experimental investigation in rats
L. HANNERZ, I. WIKSTAD, O. BROBERGER and A. APERIA 395
Calcifications, narrowing and rugosities of the leg arteries in diabetic patients
B. NEUBAUER and H. J. G. GUNDERSEN 401
Arthrosis of the lunate-capitate joint
K. JONSSON and B. F. SIGFÚSSON 415
Pulmonary edema induced by high intravenous doses of diatrizoate in the rat
K. MÅRE and M. VIOLANTE 419
Pulmonary angiography with Iopamidol and Renografin 76 in normal and pulmonary hypertensive dogs
W. M. THOMPSON, S. R. MILLS, M. BATES, L. HEDLUND and J. ROMMEL 425
Percutaneous transhepatic cholangiography and

drainage—Risks and complications
U. NILSSON, A. EVANDER, I. IHSE, A. LUNDERQUIST and A. MOCIBOB 433
Value of computed tomography in traumatic pancreatitis in children
K. IVANCEV and C.-M. KULLENDORFF 441
Pulmonary haematoma caused by oral anticoagulant therapy—Report of a case
R. COLEBUNDERS, P. PARIZEL, W. DE BACKER, A. DE SCHEPPER and P. VERMEIRE 445
Serial pulmonary angiography in rats with pulmonary damage due to intravascular coagulation
T. WEGENER, G. WEGENIUS, T. SALDEEN and U. ERIKSON 449
Size of the internal carotid and middle cerebral arteries in patients with trigeminal neuralgia
K. ERICSON 459
Complications of intracranial hemorrhage in premature infants—Ultrasound follow-up two to fifteen months after birth
J. V. KAUDE, S. LAURIN and J. D. REEDER . . . 465
Barytoma of the rectum
J. HARIRI, P. BICHEL and U. DYREBORG 473
Increased content of saliva cortisol following infusion of ioglycamate
S. WIRELL 477
Pulmonary edema induced by contrast medium—A comparative investigation in the rat following high intravenous doses of one ionic (diatrizoate) and one non-ionic (metrizamide) contrast medium
K. MÅRE and M. VIOLANTE 481
Documentation of a new contrast medium for the subarachnoid space—Demands, design and results from the first multicentre trial with iohexol
T. A. GRÖNNERÖD, O. P. ELDEVIK, T. HINDMARSH, B. KENDALL and P. H. NAKSTAD 487
Functional lumbar myelography with iohexol
P. NAKSTAD, O. AASERUD, O. SORTLAND and R. NYBERG-HANSEN 493
First clinical trial with iohexol in myelography
R. LOSSIUS, O. P. ELDEVIK, H. WEBER, S. I. OFTEDAL and J. H. STRÖMME 499
Experience with iohexol in lumbar myelography
K. ERICSON, T. HINDMARSH and J. HANNERZ . . 503
Clinical trial of iohexol in lumbar myelography
B. KENDALL, M. HARRISON and A. SCHNEIDAU . 507
Book reviews 511
